## **Change #2 to FAA P-8110-2, Airship Design Criteria (ADC)**

**AGENCY:** Federal Aviation Administration (FAA), DOT.

**ACTION:** Notice of availability.

**SUMMARY:** This notice announces the availability of Change #2 to FAA P-8110-2, Airship Design Criteria (ADC) dated November 2, 1987. This change adds the requirements for fly-by-light control systems. Two new paragraphs have been added to the ADC that cover concerns related to optical couplings and optical degradation. The requirements for a control system not directly (mechanically) connected to the control surface are applicable to both fly-by-wire and fly-by-light. The fiber optics used in fly-by-light systems, though immune to some of the problems associated with fly-by-wire systems, have their own set of problems. Those problems are addressed in this change.

**ADDRESSES:** Copies of Change #2 can be obtained from the following: Small Airplane Directorate, Standards Office (ACE-110), Aircraft Certification Service, Federal Aviation Administration, 601 East 12th Street, Kansas City, Missouri 64106.

**AGENCY:** Federal Highway Administration (FHWA), DOT.

**FOR FURTHER INFORMATION CONTACT:** Mr. Jim Travis, Transportation Engineer, Federal Highway Administration, 227 N. Bronough Street, Room 2015, Tallahassee, Florida 32301, (904) 942-9579; or Mr. William F. Sloup, P.E., Project Manager, Florida Department of Transportation, 719 S. **SUPPLEMENTARY INFORMATION:** The FHWA, in cooperation with the U.S. Forest Service, the U.S. Coast Guard and the Florida Department of Transportation will prepare an EIS for a proposal to improve SR 40 in Marion, Lake and Volusia Counties, Florida. The proposed improvement would involve the reconstruction of SR 40 from the end of the 4-lanes in Silver Springs, Marion County to US 17/92 Barberville, Volusia County, a distance of 40 miles with 27 miles within the Ocala National Forest. Improvement to the corridor are considered necessary to provide for projected traffic demands and to meet the required Florida Intrastate Highway Systems (FIHS) minimum standards. SR 40 from CR 326 in Marion County to Interstate 95 in Volusia County has been designated as part of the FIHS.

Alternatives under consideration include: (1) Taking no action; (2) widening to a four lane divided roadway; or (3) providing alternate corridors.

Letters describing the proposed action and soliciting comments will be sent to appropriate Federal, State and local agencies, and to private organizations and citizens who have expressed interest in this proposal. A series of public meetings will be held in Marion, Lake and Volusia County between February 1995 and October, 1996. In addition at least two public hearings will be held. The Draft EIS will be made available for public and agency review and comment. Formal scoping meetings will be held during the early part of 1995.

To ensure that the full range of issues related to the proposed action are addressed and all significant issues identified, comments and suggestions are invited from all interested parties.
